New Listings

In 2015, Airbnb saw peak new listings, followed by a slowdown in 2016–2017 due to stricter local regulations. Despite this, it turned profitable in late 2016 and had its first full profitable year in 2017. Growth resumed in 2018 but was halted in 2019 by the COVID-19 pandemic.

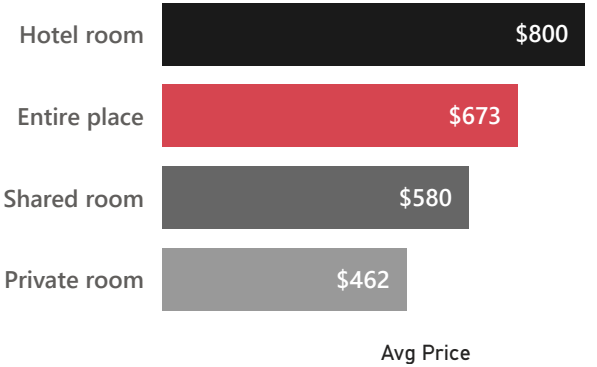

Global Airbnb Performance Dashboard

Market Share by City

Paris, NYC, and Sydney account for almost half of the total listings and 48% of total reviews.

Paris is the city with the most listings and reviews. A possible driver is the prices for hotel rooms being twice as much as Airbnb!

Global Airbnb Performance Dashboard

Review Frequency

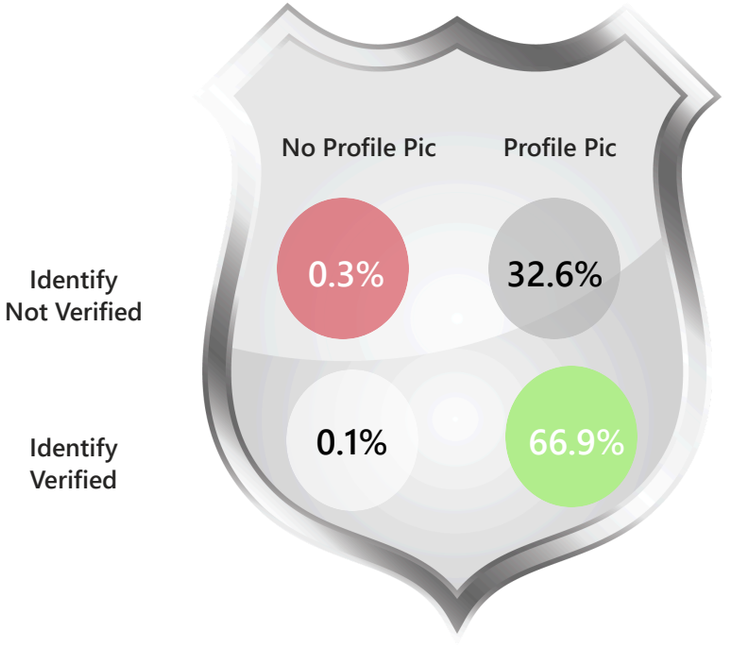

86% of reviewers wrote only one review, and 98.6% wrote three or fewer, so review volume comes mostly from new guests rather than repeat ones. One reviewer with 283 reviews is an outlier worth validating.

Seasonality

Trust

Over two-thirds of Airbnb hosts are fully verified, while nearly all hosts provide at least one trust signal, keeping unverified and anonymous profiles to a minimum.
